Narratives

Disaster Damage:

The Lower Manhattan Development Corporation was created in the aftermath of September 11, 2001 by Governor Pataki and then-Mayor Giuliani to help plan and coordinate the rebuilding and revitalization of Lower Manhattan, defined as everything south of Houston Street. The LMDC is a joint State-City corporation governed by a 8-member Board of Directors (Formerly 16 - member), half appointed by the Governor of New York and half by the Mayor of New York. LMDC is charged with ensuring Lower Manhattan recovers from the attacks and emerges even better than it was before. The centerpiece of LMDCs efforts is the creation of a permanent memorial honoring those lost, while affirming the democratic values that came under attack on September 11. The United States Department of Housing and Urban Development appropriated \$2 billion to fund the Lower Manhattan Development Corporations initiatives.

Recovery Needs:

The World Trade Center attacks resulted in a staggering loss of life and extensive physical destruction to Lower Manhattan. Approximately 30 million square feet of commercial space was damaged or eliminated, and seven buildings in the World Trade Center site were completely leveled. Critical transportation infrastructure was disrupted or obliterated, including the PATH station, the 1/9 subway line and sections of Route 9A and Church Street. Vehicular access to the area south of Canal Street was prohibited for seven days. As a result of the tragedy, residential occupancy rates in the immediate region dropped to 60%, over 100,000 jobs were displaced, and small and large businesses struggled to maintain viability.

Activity Description:

BUSINESS RECOVERY GRANT PROGRAM --- This plan details LMDC's proposed expenditure of \$350 million to supplement three business recovery and economic revitalization programs initiated and administered by Empire State Development (ESD), New York State's economic development agency, in cooperation with the New York City Economic Development Corporation (EDC). ESD Action Plan History -- Business Recovery Programs Established by ESD -- Congress appropriated an initial \$700 million to New York State for economic recovery and revitalization efforts through HUD's Community Development Block Grant Program. This fund is managed by ESD in cooperation with EDC in accordance with a Final Action Plan and an Amended Action Plan accepted and approved by HUD. The Final Action Plan describes all of the business recovery and revitalization programs. The Amended Action Plan modifies three programs: (1) the Small Firm Attraction & Retention Grant Program, (2) the WTC Business Recovery Loan Fund, and (3) the Infrastructure Rebuilding Program. Both ESD's Final Action Plan and Amended Action Plan are available on the ESD web site: www.empire.state.ny.us. --Additional Business Recovery Funding from LMDC -- Both ESD's Final Action Plan and Amended Action Plan recognized that more than \$700 million would be needed to fully fund the business recovery and revitalization programs as described. When an initial \$2 billion was appropriated to LMDC, Congress intended that some portion would be directed to the business recovery and

revitalization effort administered by ESD. In fact, \$500 million of the initial appropriations (the \$700 million and the \$2.0 billion) is required to be made available to small businesses, not-for-profit organizations, and individuals to compensate them for economic losses. -- LMDC is publishing this Partial Action Plan to allocate \$350 million of the \$2 billion fund to three business recovery programs administered by ESD as described in ESD's Final Action Plan and Amended Action Plan referred to above. -WTC Business Recovery Grant (BRG) Program -- \$150,000,000,(total program fund \$481,000,000) ---PROGRAM OVERVIEW---The WTC BRG program provides grants to businesses (including not-for-profit organizations) with fewer than 500 employees, located in Manhattan south of 14th Street, to compensate them for economic losses resulting from the disaster. Compensation is calculated based on days of lost gross revenue, with the maximum number of days and amounts determined by business location. ---PROGRAM OBJECTIVE--- The program is intended to provide compensation for economic losses at affected firms, thereby assisting in the retention of 225,000 jobs at assisted businesses and up to an additional 150,000 jobs at businesses indirectly affected by the activities of assisted businesses. Note that businesses assisted by this program will also be eligible for assistance from other ESD programs. Consequently, job impacts across programs are not additive. --- Integration with Preexisting Programs. Benefits from the program will be integrated with the previously offered WTC Disaster Retail Recovery Grant Program. That program offered compensation equal to three days lost business revenue, capped at \$10,000, to retail and personal service firms with fewer than 500 employees located in Manhattan south of Houston Street on September 11, and continuing in business in New York City.---Benefits from the program will also be integrated with the previously offered Lower Manhattan Grant Program administered by the EDC. That program provided grants, capped at \$10,000, to small non-retail businesses located in the restricted area of Lower Manhattan, and grants to other non-retail businesses located south of Houston Street tied to application and approval of SBA loans.---eligibility Criteria and Maximum Award Levels. Applicants for assistance through the WTC BRG program must show a business lease, deed or permit that was in effect on September 11th. -RESULTS--The Business Recovery Grant Program (BRG) ended December 31, 2002. The program provided \$219 million in grants to 6,858 firms with 52,310 employees.

Location Description:

Manhattan south of 14th Street

Activity Progress Narrative:

This is an inactive program requiring final resolution or reallocation of any undistributed funds a determination to be made in the near future. There is a possibility that a grant recovery may be made otherwise the activity would be closed.

Activity Description:

WTC JOB CREATION AND RETENTION PROGRAM --- The WTC Job Creation and Retention Program (JCRP) offers grants to assist firms with 200 or more employees that were displaced from their workspace for at least one month after 9/11, as well as other affected firms, and firms willing to create new jobs in the downtown area. JCRP is managed by ESD in cooperation with NYC EDC in accordance with a Final Action Plan and an Amended Action Plan

accepted and approved by HUD. Assisted companies are required to maintain jobs in New York City for a minimum of ten years. Decisions as to whether to provide assistance and how much to offer are evaluated on an individual case basis based upon an assessment of the economic value of the project to New York City, risk, location, and size of workforce. In addition, there is assistance for projects for the adaptive reuse of available space to meet the needs of firms with specialized requirements in industries offering substantial job creation potential to the area on or south of Canal Street. Empire State Development (ESD) has been drawing on LMDC's \$143 million sub-allocation since August 2003.

TOTAL COST OF PROGRAM. ESDs Action Plans allocate \$175 million to WTC JCRP. This \$143 million was allocated to the program by LMDC through Partial Action Plan 2 (this was subsequently reduced by \$7 million), bringing the total program fund to \$318 million.

Location Description:

On or South of Canal Street

Activity Progress Narrative:

Empire State development Corporation (ESDC) has provided a schedule of disbursements from the ESDC Grant which they manage. These funds must be exhausted before they pay grants from the LMDC funds in this activity. ESDC still has at this date over \$5 million dollars left which if they remain true to their forecast will not be exhausted until the end of 2017. At that point this LMDC activity will once again begin to have disbursements to approved grant recipients made against it. During the quarter, the only LMDC activity was the return of \$12,600.00 in the form of a grant recovery.

ESDC has ceased to accept or approve any new applications. They have projected disbursements from the LMDC Grant will be processed through the end of 2022.

Activity Description:

SMALL FIRM ATTRACTION AND RETENTION GRANT PROGRAM (SFARG) --- The Small Firm Attraction and Retention Grant Program (SFARG) was an initiative designed to assist businesses and not-for-profit organizations with 200 or fewer employees located south of Canal Street in Lower Manhattan. SFARG provided cash grants to eligible entities that committed to leasing space and employing people south of Canal Street for a minimum of five years. The program provided assistance ranging from \$3,500 to \$5,000 per employee. Businesses that were located south of Canal Street as of September 11, 2001 and committed to stay downtown at least 5 years could also qualify for the program.

The final application deadline was June 2005. Applications for initial SFARG disbursements are no longer being accepted. Partial Action Plan 2 as amended on September 27, 2006 reduced the funding for SFARG by \$21 million from \$50 million to \$29 million.

Location Description:

The area on the south side of the line beginning at the intersection of the Hudson River with the Holland Tunnel, and running thence east to Canal Street, then running along the centerline of Canal Street, to the intersection with Rutgers Street, and thence running along the Centerline of Rutgers Street to the East River.

Activity Progress Narrative:

This activity is now deemed inactive pending a final resolution/re-allocation of any undistributed funds.

Activity Description:

SHORT-TERM CAPITAL PROJECTS - DOWNTOWN ALLIANCE STREETSCAPE PROGRAM --- The short-term capital projects were selected through a consultation process involving participants from community groups, local businesses, and city and state government to revitalize the Lower Manhattan community as well as facilitate economic development after the attacks of September 11th. Manhattan Community Board 1 contributed insight into residents' needs for the area at meetings and through written correspondence. Input was solicited and received from organizations such as the Alliance for Downtown New York, the Real Estate Board of New York, the Association for a Better New York, the Partnership for New York City, Wall Street Rising, and the American Institute of Architects. Major area firms and property owners were also consulted to determine specific needs and ways to facilitate and sustain economic growth. The City of New York Mayor's Office compiled input from a number of sources and a range of constituencies, determining areas of overlap and greatest need. The Short-Term Capital Projects were first announced by Governor George Pataki on April 24, 2003. As LMDC selects projects for funding to revitalize Lower Manhattan, support from the public is considered. Representing many businesses in New York City, the Partnership for New York City has commented on the need to improve pedestrian and vehicular access, the need for transformation of areas with the appearance of a "war zone" into a secure but pleasant place, and the provision of amenities to improve street life and the neighborhood for workers, residents, and visitors. The short-term capital projects will provide immediate relief to Lower Manhattan residents, businesses, workers, students, and visitors by improving accessibility in and around Lower Manhattan and enhancing the quality-of-life in Lower Manhattan, making this a more attractive place to live, work, and visit. These projects can be completed in the short-term, many within six months to one year, providing tangible improvements to life in Lower Manhattan and helping to retain and attract businesses and residents while work to realize the long-term vision moves forward. The short-term capital projects selected must meet some or all of the following criteria: Consistent with HUD

eligibility criteria \checkmark Enhance the quality-of-life in Lower Manhattan in the near-term for residents, businesses, workers, students, and/ or visitors; \checkmark Provide or enhance open space in Lower Manhattan; \checkmark Leverage additional private or public funds for completion of the full scope of the capital project; and \checkmark Funds will be used for capital or core costs, not operational costs. All projects must be short-term in that they must be able to be completed within one year. Exceptions will be allowed for projects that show substantial and significant progress and meet some or all of the criteria above within one year. --- Downtown Alliance Streetscape Program --- Following the recovery efforts and round-the-clock clean-up at the World Trade Center site since September 11, 2001, there has been a need to enhance the streetscape neighboring the World Trade Center Site. The Alliance for Downtown New York has developed a short term action plan, based on its previously completed Streetscape Study to improve safety, add signage, and increase navigability along lower Broadway. The project area consists of both sides of Broadway, from Battery Park to City Hall Park. The project area is divided into three segments: Battery Place to Exchange Place, Exchange Place to Liberty Street, and Liberty Street to Barclay Street. This project anticipates the completion of the Downtown Alliance Streetscape Plan. Elements of the Streetscape Plan include sidewalk inserts, sidewalks with specially tinted concrete, and 12 \checkmark granite curbs with street names and markers of historic Broadway events; new custom lighting designed to improve overall illumination; new benches, bollards, and waste receptacles; and specially-designed signage to facilitate way-finding and identification of significant sites. The enhancement of the safety and user-friendliness of Broadway will make Lower Manhattan a more attractive and welcoming place for businesses and visitors alike, and will assist the revitalization efforts of the area. This project will benefit businesses, workers, residents, and visitors in Lower Manhattan. The estimated cost included in this partial action plan for this project is up to \$4,000,000.00. The total project cost is approximately \$19,500,000.00. Other resources are expected to be available for this project to address the needs outlined in this plan. These other expected resources from private and non-Federal public sources may include, but are not limited to, \$15,500,000 in funds from the Alliance for Downtown New York and other sources.

Activity Description:

PROJECT DESCRIPTION: LMDC has allocated \$49,981,689 for the Neighborhood Parks And Open Spaces program in Lower Manhattan. The first phase of the Open Spaces program began in 2003 and includes improvements at Wall Street Triangle, Coenties Slip, Old Slip, Washington Market Park, Tribeca Park, Battery Park Bosque, Drumgoole Plaza, Brooklyn Bridge Plaza, Columbus Park, Sara D. Roosevelt Park, Bowling Green, Al Smith Playground, and the East River Park ball fields. New Parks and Significant Enhancements - Wall Street Triangle has been significantly greened with planting beds, flowering trees, and an expanded sidewalk. The Coenties Slip project created a permanent public space from an unused roadbed. The Battery Bosque is a newly designed portion of an existing park that now includes an ornamental garden, evening lighting, and a fountain. The Bosque complements other improvements in Battery Park such as the renovation of historic Castle Clinton. The Brooklyn Bridge Plaza and Drumgoole Plaza projects removed parking spaces and replaced traffic barriers to expand and improve the public space. Major Rehabilitations - The Central Lawn of Washington Market Park, a major destination in a heavily residential neighborhood, was reconstructed with new turf and an irrigation system. Bowling Green, America's first park was completely refurbished. Portions of Columbus Park have been reconstructed and new amenities in this heavily used Chinatown park include benches, game and picnic tables, drinking fountains, and lighting. The East River Park project reconstructed ball fields. --The second phase of parks capital improvements began in 2006 and include: Washington Market Park Comfort Station, Collect Pond Park, Sara D. Roosevelt Phase 2, Allen and Pike Street Malls, James Madison Park, Battery Park, and Canal Varick Laight Park. PROJECT SUPPORT AND OUTREACH: Community Board 1 contributed insight into residents' needs for the area at meetings and through written

correspondence. Input was solicited and received from organizations such as the Alliance for Downtown New York, the Real Estate Board of New York, and the Association for a Better New York, the Partnership for New York City, Wall Street Rising, and the American Institute of Architects. Major area firms and property owners were also consulted to determine specific needs and ways to facilitate and sustain economic growth. The City of New York Mayor's Office compiled input from a number of sources and a range of constituencies, determining areas of overlap and greatest need. PROPOSED BENEFICIARIES: The creation of open spaces and neighborhood parks will provide public facilities that add to the quality of life for all communities in lower Manhattan and draw residents and visitors to the area, which will also contribute to the rehabilitation of Lower Manhattan. These projects will provide immediate relief to Lower Manhattan residents, businesses, workers, students, and visitors by improving accessibility in and around Lower Manhattan and enhancing the quality-of-life in Lower Manhattan, making this a more attractive place to live, work, and visit. Community Board 1 and 3 comprise the proposed Lower Manhattan project area. Community Board 1 has the highest population growth rate of the city's 59 community boards, with increases of 100%, 59%, and 35%, over the last three decades respectively. According to the 2000 Census, the population is 34,420 residents, with over 6,791 families. A dire need for additional parks has repeatedly been identified by Community Board 1 in its annual Statement of Needs, particularly on the district's east side where virtually no park space is available. In addition to its growing residential population, the area hosts hundreds of thousands of tourists annually, making improved public spaces essential to the sustainability of the area. In contrast, further east, Community Board 3 consists of predominantly low- and moderate-income households and has the third lowest median income in Manhattan. Community Board 3 has a long tradition of ethnic, economic, and cultural diversity and with a population of 164,407 according to the 2000 Census is one of the City's most densely populated areas. The need for additional parkland and the rehabilitation of existing parks has been identified as a high priority of the Community Board. Enhanced parks and new green spaces across the residential communities throughout Lower Manhattan will serve as a catalyst for the redevelopment of Lower Manhattan by providing public facilities for local workers, a draw for businesses, and an improvement in the quality of life for downtown's growing residential population. They will also provide a significant destination for visitors by capitalizing on downtown's magnificent waterfront setting, unique architectural character, and important historical context.

Location Description:

Wall Street Triangle- Wall Street, Pearl and Water streets; Coenties Slip- Coenties Slip, Pearl and Water streets; Tribeca Park- Beach Street, 6th Ave, and Ericsson Place; East River Park Ballfields- Montgomery-Houston Street and FDR drive; Drumgoole Plaza- Frankfort and Gold Streets; Brooklyn Bridge Plaza- Avenue of the Finest, Frankfort St, and Park Row. Improvement will be made up to Chatham Square; Sara D. Roosevelt Park- Forsyth, Canal, Chrystie, and E. Houston; Bowling Green- Broadway and Whitehall Street; Al Smith Playground- Catherine, Madison, to Oliver Street; Washington Market Park- Greenwich and Chambers Streets; Old Slip- Old Slip, Water, and FDR; Louise Nevelson Plaza - Maiden Lane, Liberty St, William St. PHASE 2: Lower Manhattan, bounded by West Street to the west, the East River to the east, and generally between the Brooklyn and Manhattan Bridges. The Allen and Pike Street Malls extend from the East River, up along Pike Street to Canal Street, where they become the Allen Street Malls and extend northward to Houston Street.

Activity Progress Narrative:

Phase 1

All work related to the first phase of the Parks and Open Spaces Project under this program has been completed. The New York City Department of Parks and Recreation has informed LMDC that no additional reimbursement requests will be submitted related to Phase 1 and no reimbursement requests were paid or received this quarter. The remaining Phase 1 subrecipient agreement (SRA) funds were reallocated in accordance with LMDC Board authorization which was approved by HUD last quarter. This portion of this activity is completed.

Phase 2

As for Phase 2, all work has been completed on Canal Varick Light Park, Sarah D. Roosevelt/Hester Street Playground, Collect Pond Park, Washington Market and Allen Street/Pike Street Mall. The Battery Carousel is complete and open to the Public. All reimbursement requests related to this project were submitted and paid. The remaining Phase 2 SRA funds were reallocated in accordance with LMDC Board authorization which was approved by HUD in December 2016.

Approximately \$125,000 in funds that remained in this activity for legal and environmental costs associated with area parks and open spaces has been transferred to the Final Action Plan for the same usage enabling the closing of this activity in Partial Action Plan 12. Over the past quarter, approximately \$2,700 was spent on legal and environmental expenses associated with lower Manhattan parks.

Activity Description:

PROJECT DESCRIPTION: LMDC has allocated \$72,600,000 for Hudson River Park Improvements. The Hudson River Park Trust (HRPT) was created in 1998 to design, build, and operate a five-mile stretch of self-sufficient waterfront public park along the Hudson River. Hudson River Park has over 5 million users annually. The Park consists of seven segments. Segments 1, 2, and 3 include the Lower Manhattan communities of Battery Park City and Tribeca, both of which were severely impacted by the September 11th attacks on the World Trade Center. The Park is also easily accessible to the other substantial residential communities along the west side of Lower Manhattan. The LMDC's assistance to the Hudson River Park Trust will help make possible the construction of public recreational facilities that will improve the quality of life in Lower Manhattan, making it a more desirable place to live, which will not only help retain existing residents, but attract more residents and visitors to the area.

LMDC funds are supporting the construction of Segment 3, which runs from Chambers Street to West Houston Street. Within this area would be two public recreational piers (Piers 25 and 26), an ecological pier, and an adjacent upland park. The Segment 3 design emphasizes the environment, active recreation, community uses, and small boating opportunities. It also focuses on the Hudson River itself through the inclusion of a planned estuarium, an educational and research center devoted to the Hudson River. The public facilities to be created would include habitat planting areas, a boathouse, a restaurant, a children's playground, volleyball courts, basketball courts, an open lawn, boat docking, mini golf, an informal athletic field, and a skate park. The proposed activities would be linked by beautiful pathways and planted areas and a river-side pedestrian esplanade. This project has gained widespread support from the Lower Manhattan community, including residents, workers, and a wide variety of civic and community organizations.

PROJECT SUPPORT: The LMDC has heard from numerous groups supporting the Hudson River Park improvements. The Friends of Hudson River Park state that the section between Houston and Chambers Streets will be an extraordinary recreational resource for Downtown residents. Improvements to the park will enhance the quality of this public facility by adding recreational opportunities and the park will serve as a major attraction in Lower Manhattan. Other comments expressing support have been received from Community Board 1, Senator Schumer, Friends of Hudson River Park, Brooklyn Bridge Park Coalition, Historic Districts Council, New York City, Audubon Society, State Senator Thomas K. Duane, Hudson Park Trust Council, the New York Building Congress, Congressman Jerrold Nadler, and others from the public and private sector.

PROPOSED BENEFICIARIES: This project will benefit workers, residents, and visitors in Lower Manhattan. Also, the creation of open spaces and neighborhood parks will provide public facilities that add to the quality of life for all communities in lower Manhattan and draw residents and visitors to the area, which will also contribute to the rehabilitation of Lower Manhattan.

PROGRAM OBJECTIVES: The objective of this activity is to enhance the ability of residents, workers and Lower Manhattan visitors to enjoy the Hudson River, a great natural resource. They would protect the Hudson River, including its role as an aquatic habitat; increase the quality of life in the adjoining communities; help alleviate the blighted, unhealthy, unsanitary, and dangerous conditions that characterize much of the area; and stimulate tourism and economic activity. Additionally, the development of Segment 3 of the Hudson River Park would encourage, promote, and expand public access to the Hudson River, promote water-based recreation, and enhance natural, cultural, and historic aspects of the Hudson River. Although only portions of the overall Hudson River Park have been completed, it already attracts an estimated 17 million visitors each year in recreational users alone. It is also estimated that during the busy summer months, the park is visited by nearly 900,000 people each month. Hudson River Park has served as a location for free concerts, dances, movies, and other educational opportunities. Additionally, the bikeway located adjacent to Hudson River Park and maintained by HRPT has become the most heavily trafficked bikeway in the United States.

ALLOCATIONS IN PARTIAL ACTION PLAN: The estimated cost included in this Partial Action Plan 4 for this project is up to \$2,600,000.00. On February 28, 2006, HUD approved Partial Action Plan 10, which allocated up to \$70 million for the completion of Hudson River Park Segment 3 in Tribeca.

Location Description:

Hudson River Park Improvements between West Houston and Spring Streets; and Hudson River Park-Segment 3, which runs along the Hudson River from Chambers Street to West Houston Street in Lower Manhattan.

Activity Description:

--WEST STREET PEDESTRIAN CONNECTIONS-- This project constructed a temporary pedestrian bridge near the intersection of Vesey and West Streets and provide enhancements to the current bridge and walkway at Liberty Street. This improvement fostered safe pedestrian flows across West Street, as well as handled the expected high volumes of pedestrians that use this crossing daily since PATH service was restored in December of 2003. The former North Bridge, which connected the World Trade Center site to the World Financial Center, was entirely destroyed by the terrorist attacks on September 11, 2001. This bridge was a major connection between the World Trade Center PATH Terminal (which served an estimated 67,000 in-bound PATH riders daily before it was destroyed on September 11, 2001) and the heavily utilized offices at the World Financial Center. During peak hours, 6,000 people per hour utilized the pedestrian bridge prior to September 11th. Since the attacks, the number of pedestrians crossing West Street at the Vesey Street intersection has steadily recovered from levels immediately after the attacks, and it is expected that as the area around the World Trade Center continues its recovery, these numbers will continue to rise. As PATH riders arrived at the World Trade Center and crossed West Street to reach the World Financial Center, a replacement for the destroyed bridge was needed in order to safely and efficiently serve the estimated 6,500 pedestrians that utilized the West Street-Vesey Street intersection hourly. This project benefited businesses, workers, residents, and visitors in Lower Manhattan. In 2010, an amendment to Partial Action Plan 4 expanded the scope of the West Street Pedestrian Connections project to include pedestrian management services in order to mitigate the impact of construction on and around West Street including World Trade Center construction.

--ALLOCATIONS IN PARTIAL ACTION PLAN--The estimated cost included in Partial Action Plan 4 is up to \$ 22,955,811.

Location Description:

Liberty Street at West Street and Vesey Street at West Street in Manhattan.

Activity Description:

Pedestrian Bridge over West Street at West Thames Street--The new pedestrian bridge will create an alternate safe crossing of West Street and provide an improved connection between Battery Park City with its open spaces, recreational facilities, residences and commercial buildings and the rest of Lower Manhattan. The bridge will benefit Lower Manhattan residents, workers, and visitors as well as parents and children attending the new Public School 276 that has opened in Battery Park City a few blocks south of West Thames Street. The bridge is expected to be constructed by 2018.

Location Description:

The pedestrian bridge will span West Street in the vicinity of its intersection with West Thames Street. The eastern landing of the bridge will be to the north of the MTA-owned Brooklyn Battery Garage and the western landing will be in the vicinity of the Battery Park City Esplanade along West Street.

Activity Progress Narrative:

The construction phase of the West Thames Street Pedestrian Bridge Project is ongoing and on schedule. The contractor continues to work on the construction of bridge foundations and support structures at the project site while bridge spans are being fabricated offsite by the steel contractor. LMDC and Battery Park City Authority (BPCA) continue to work with the City of New York to officially name the bridge the Robert R. Douglass Pedestrian Bridge in honor of long time lower Manhattan advocate and LMDC Board member who passed away in December 2016. No payments were made by LMDC from this grant during the quarter. BPCA made approximately \$2 million in payments toward construction services as required in the terms of the subrecipient agreement.

Activity Description:

SHORT-TERM CAPITAL PROJECTS - LOWER MANHATTAN COMMUNICATIONS OUTREACH CAMPAIGN --- The short-term capital projects were selected through a consultation process involving participants from community groups, local businesses, and city and state government to revitalize the Lower Manhattan community as well as facilitate economic development after the attacks of September 11th. Manhattan Community Board 1 contributed insight into residents needs for the area at meetings and through written correspondence. Input was solicited and received from organizations such as the Alliance for Downtown New York, the Real Estate Board of New York, the Association for a Better New York, the Partnership for New York City, Wall Street Rising, and the American Institute of Architects. Major area firms and property owners were also consulted to determine specific needs and ways to facilitate and sustain economic growth. The City of New York Mayors Office compiled input from a number of sources and a range of constituencies, determining areas of overlap and greatest need. The Short-Term Capital Projects were first announced by Governor George Pataki on April 24, 2003 The short-term capital projects will provide immediate relief to Lower Manhattan residents, businesses, workers, students, and visitors by improving accessibility in and around Lower Manhattan and enhancing the quality-of-life in Lower Manhattan, making this a more attractive place to live, work, and visit. These projects can be completed in the short-term, many within six months to one year, providing tangible improvements to life in Lower Manhattan and helping to retain and attract businesses and residents while work to realize the long-term vision moves forward. The short-term capital projects selected must meet some or all of the following criteria: Consistent with HUD eligibility criteria Enhance the quality-of-life in Lower Manhattan in the near-term for residents, businesses, workers, students, and/ or visitors; Provide or enhance open space in Lower Manhattan; Leverage additional private or public funds for completion of the full scope of the capital project; and Funds will be used for capital or core costs, not operational costs. All projects must be short-term in that they must be able to be completed within one year. Exceptions will be allowed for projects that show substantial and significant progress and meet some or all of the criteria above within one year. **PROJECT OBJECTIVES**--The timely and regular dissemination of information regarding the revitalization of Lower Manhattan is critical to LMDCs mission. Lower Manhattan residents, business owners, visitors, and others interested in and affected by the attacks must be kept apprised of developments on the World Trade Center site and the broader off-site revitalization effort. Such information enables Lower Manhattan stakeholders to track key milestones and hold government accountable, make long-term decisions based on projected target dates for achievement of those milestones, and anticipate any disruptions to their routine and plan accordingly. This campaign complements LMDCs web site content and capabilities. The primary target area for dissemination of information is Lower Manhattan south of Houston Street. LMDC will launch the Lower Manhattan Communications Outreach Campaign (the Campaign) in June 2003. The Campaign will be created and directed by in-house staff of LMDC, minimizing the use of outside contractors in order to maximize resources. LMDC is consulting with businesses, community groups, and trade organizations to formulate the elements of the Campaign and to leverage their collective ability to reach thousands of Lower Manhattan residents, workers, and visitors. Elements of the Campaign include: Development and widespread distribution of monthly updates on the rebuilding effort; Weekly electronic updates on the rebuilding effort; Maintenance and promotion of centralized source for information on the Internet; Identification of field locations to disseminate information on a recurring basis (e.g., World Trade Center site, World Financial Center, kiosk); and Outreach to corporate HR departments, building owners, and property managers to communicate directly with Lower Manhattan residents and employees. **BENEFICIARIES**--This project will benefit businesses, workers, residents, and visitors in Lower Manhattan. The estimated cost included in this partial action plan for this project is up to \$1,000,000.00. Other resources are expected to be available for this project to address the needs outlined in this plan. These other expected resources from private and non-Federal public sources may include, but are not limited to, free distribution of materials by local community groups, businesses, and elected officials. The projected end date for this activity encompasses anticipated programmatic and/or financial activity that may occur.

Activity Description:

In 2004, as part of LMDC's environmental obligations for the World Trade Center site, LMDC entered into an agreement regarding historic resources with the NYS Historic Preservation Office and the federal Advisory Council on Historic Preservation ("the Programmatic Agreement"). Under this agreement, if an historic resource is found during the site's reconstruction, state and federal officials need to be notified and a mitigation plan developed for the historic resource, subject to consultation with approximately 40 consulting parties identified in that agreement.

On July 13, 2010 archaeologists monitoring excavation of the WTC Site observed the curved timbers of the lower hull of what proved to be the stern of an 18th century ship. After the remnants were uncovered, LMDC assembled a team of ship experts and conservators to develop and execute a short-term mitigation plan so the ship could be removed from the site in a controlled manner before its condition was threatened by exposure to the elements. The effort included protecting, recording, excavating, disassembling, packaging, and removing the vessel's components and associated artifacts from the project site.

A year later remnants of the bow were discovered on the site. As a result of LMDC's efforts, remnants from both the bow and stern are currently in stable condition and are being stored at the Center for Maritime Archaeology and Conservation at Texas A&M University.

The NYS Historic Preservation Office has determined the ship is eligible for listing on the National Register of Historic Places. Only about a dozen colonial-era merchant ships have ever been professionally recorded nationwide. The WTC Ship is significant for its association with the rise in prominence of New York's port during the late 18th century, its association with the development of New York City's Hudson River shoreline, and for being an early example of a Hudson River Sloop.

After all the ship's materials were removed and analyzed, LMDC contacted institutions in the New York metropolitan area to determine their interest in displaying the WTC ship. The institution that expressed the greatest interest was the New York State Museum in Albany. The Museum intends to make the ship a centerpiece. The museum already displays a collection of materials from the World Trade Center and objects from the international response to the events of September 11, 2001.

LMDC has amended the Final Action Plan and Partial Action Plan 11 to re-allocate up to \$2,100,000 from the Community and Cultural Enhancement Funds to provide for the preservation, reconstruction, and display of the World Trade Center Ship. This work may include analysis, cleaning, stabilization, freeze drying, reconstruction, potential fabrication of missing parts, assembly of an exhibit, and preparation of interpretive materials. Because this phase of the work is expected to last as many as seven years, it is expected that LMDC would begin this work using its consultants and would later transfer ownership of the ship to the Museum and the Museum would complete the work through its Subrecipient agreement.

The proposed transfer of the ship to the Museum for public display, which constitutes the proposed mitigation effort required by the 2004 agreement regarding historic resources preservation, is subject to consultation with the State Historic Preservation Office, the federal Advisory Council on Historic Preservation, and "consulting parties" which have been identified to consider World Trade Center historic issues. LMDC staff would consider the comments of the consulting parties before modifying or finalizing the mitigation plan, as appropriate.

This plan would constitute the full mitigation required by the April 22, 2004 Programmatic Agreement for the WTC Memorial and Redevelopment Plan and would not cause any significant adverse effects under the State Environmental Quality Review Act.

Location Description:

WTC, Texas A&M, and State of NY Museum (Albany, NY)

Activity Progress Narrative:

During the second quarter, LMDC continued discussions with The State Museum of Albany (The Museum) with the goal of executing their subrecipient agreement. The Museum will showcase the World Trade Center (WTC) Ship once the remnant is stabilized and delivered to Albany. We hope to finalize the subrecipient agreement with the Museum in the near future. In the interim, Texas A&M is engaged in Phase 1 of a three phase project associated with the conservation of the World Trade Center Ship that was excavated at the WTC site. Phase 1 objectives include the formation of a scientific team to conduct lab investigations on the archaeological structure and components parts and stabilize the materials for eventual museum installation. This quarter, Texas A&M received approximately \$28,000 in reimbursements for their Phase 1 work.

Activity Description:

WTC MEMORIAL AND CULTURAL PROGRAM/130 LIBERTY--LMDC, a subsidiary of the Empire State Development Corporation (a political subdivision and public benefit corporation of the State of New York), undertook, pursuant to the New York State Urban Development Corporation Act (UDC Act) and in cooperation with the HUD and the Port Authority, the World Trade Center Memorial and Cultural Program (the Memorial Program) as part of the implementation of the WTCMR Plan. LMDC has implemented and will continue to implement the Memorial Program which included the planning, selection, coordination and construction of a memorial, memorial center, and the planning and construction of memorial-related improvements, and museum and cultural uses on the WTC Site and adjacent areas to complement the redevelopment of commercial office space, retail space, and other facilities, open space areas, and infrastructure improvements by the Port Authority. The planning process includes other appropriate public and private entities.--LMDC and Port Authority
 Roles--LMDC will be responsible for overseeing the implementation of the memorial, memorial Center, interpretive museum, and cultural uses that comprise the Memorial Program, while the Port Authority will be responsible for the commercial, retail, open space areas, and infrastructure components of the WTCMR Plan to be located at the WTC Site. LMDC and the Port Authority will cooperate in developing a plan for implementation of the components of the WTCMR Plan to be located outside the WTC Site. LMDC is responsible for conducting coordinated environmental

reviews of

the combined WTCMR Plan.--In carrying out the Memorial Program, LMDC conducted an international competition for the selection of the memorial design. LMDC provided initial funding for the design, development, and construction of the memorial, planned for memorial-related improvements and museum and cultural facilities and uses; LMDC has and will continue to oversee the overall

implementation of the memorial as well as the museum and cultural programming and possibly, elements of the WTCMR Plan, including all required coordination with HUD, the Port Authority, the State of New York, the City of New York and other public and private entities. LMDC will also be involved in the coordination of the Memorial Program with the plans and implementation schedule for the WTCMR Plan.--PROJECT AREA--The Project Area is located in Lower Manhattan on two sites: (i) the WTC Site, an approximately 16 acre super-block, bounded by West, Vesey, Church, and Liberty Streets; and (ii) the adjacent two city blocks south of the WTC Site, one bounded by Liberty, Washington, Albany and Greenwich Streets, and the other bounded by Liberty, West, Cedar and Washington Streets, and a portion of Liberty Street between those parcels and the WTC Site (collectively, the Southern Site).--Specific parcels acquired consist of (a) 130 Liberty Street, on which the Deutsche Bank building was situated (the 130 Liberty Site), (b) 155 Cedar Street, on which the St. Nicholas Church was situated

(the Church Site), and (c) 140 Liberty Street, (the Milstein Site). All of the structures situated on these parcels were destroyed or severely damaged on September 11, 2001. The acquisition of the Church Site and

pursuant to a mediated settlement agreement among Deutsche Bank, two of Deutsche Bank's insurers of the building (Prior Insurers), and LMDC. Under the agreement, LMDC initially paid \$90 million to Deutsche Bank for title to the 130 Liberty Site and LMDC was responsible for certain costs associated with the remediation and deconstruction of the Deutsche Bank building, up to \$45 million. LMDC initially projected approximately \$25-\$29 million in additional costs in connection with the remediation and deconstruction of the Deutsche Bank building. These additional costs related to, among other things, the procurement of pollution liability insurance, the retention of an entity to serve as LMDC's representative in the day-to-day management of the remediation and deconstruction process, the undertaking of additional environmental review, testing, and monitoring during the deconstruction process, and legal and other transaction fees and expenses. Other expenditures included consultant fees and costs associated with the required public notices and public outreach for the acquisition of property and continuation of the environmental review process. Accordingly, LMDC initially expected to pay an aggregate of \$164 million for all costs associated with acquiring title to 130 Liberty Street and the remediation and deconstruction of the Deutsche Bank building, which together would create a parcel ready for redevelopment. ---AMENDMENT TO PROJECTED COSTS ASSOCIATED WITH PROPERTY ACQUISITION ---Following the approval of the Partial Action Plan 7 and consistent with the mediated settlement, LMDC entered into agreements with the Prior Insurers and with Deutsche Bank that realized the transactions and provided for a \$45 million cap on LMDC's cost of deconstruction, demolition, and related cleaning and disposal (subject to certain exceptions). Specifically, a Demolition Cap Agreement provided, among other things, that the Prior Insurers would pay all incremental costs above the \$45 million cap, to the extent those incremental costs were necessary to comply with the legal requirements applicable to the cleaning and removal of hazardous materials related to September 11, 2001. In addition, after acquiring the building on August 31, 2004, LMDC entered into a contract with Gilbane Building Company to clean and deconstruct the building. LMDC engaged environmental consultants to conduct independent environmental testing and characterization of the Building. The testing and characterization initial results were released on September 14,

2004. On December 13, 2004, LMDC and Gilbane Building Company issued a Draft Phase 1 Deconstruction Plan. The Plan was released publicly and submitted to the appropriate regulatory agencies for comment. This initial draft Deconstruction Plan was prepared in response to the Initial Building Characterization, and with direction from the New York State Department of Labor. Based on comments provided by regulatory agencies, including specific comments delivered on January 31, 2005, a revised deconstruction plan to the regulators. After the revised Deconstruction Plan was approved by the regulators, gross cleaning and deconstruction commenced. The projected increase in project costs reflects anticipated changes to the scope of the cleaning and deconstruction resulting from environmental testing, comments received from regulatory agencies, and revised projected costs provided by the contractor. --Based on the additional information regarding the characterization of material in the building and the related legal requirements, additional cleaning and deconstruction work, resources, and services were needed, including added remediation and mitigation measures, additional construction management, additional legal services, additional environmental consulting services, and enhanced integrity monitoring. --Although the amended allocation is intended to cover costs associated with the additional work and resources, LMDC will seek to recover all such incremental deconstruction costs attributable to the application of legal requirements applicable to the cleaning and removal of hazardous materials. This recovery effort necessitates the assistance and representation of environmental, real estate, and litigation counsel in order to ensure the comprehensive and aggressive pursuit of contractual and legal avenues available to LMDC. The increased allocation allowed work to proceed on the abatement and deconstruction while LMDC pursued recovery of the funds. Therefore, LMDC anticipated that these funds would be used only to fund the work during this interim period and that the increased expenditures that were the result of legal requirements would be substantially recovered.--PROJECT OBJECTIVES—The rebuilding of the Project Area as a mixed-use center of commerce, public spaces, and culture, with the memorial at its heart, will advance the goals of the UDC Act, the objectives developed by LMDC and the goals articulated by the Governor of the State of New York and the Mayor of the City of New York to remember and honor the victims of the September 11, 2001 and February 26, 1993 terrorist attacks while revitalizing Lower Manhattan. The acquisition of real property that is blighted and deteriorated is essential to the realization of the redevelopment of the Project Area.--The memorial will ensure that future generations never forget the thousands of people who died on September 11, 2001 in New York, in Shanksville, Pennsylvania and at the Pentagon in Virginia, as well as those who died in the terrorist bombing of the World Trade Center on February 26, 1993. The memorial will be set in a context that bustles with the activity of Lower Manhattan, yet provides a quiet and respectful setting for remembrance and contemplation. Family members of victims and visitors from around the world will come to the Project Area to learn about the events of September 11, 2001 and February 26, 1993 and to remember those who died and those whose lives were changed forever. --Revitalizing Lower Manhattan--The initial conditions of the Project Area were substandard and unsanitary under the UDC Act and impaired the sound growth and development of Lower Manhattan. In addition, there was a need for the development of cultural, recreational, community and other civic facilities in Lower Manhattan.--Restoring the Project Area as a functioning part of Lower Manhattan was a priority objective for this project. This project has intended to eliminate the blighting effects resulting from the events of September 11, 2001, and to re-establish the Project Area as a locus of commerce, civic space and amenities, including appropriate commercial and retail uses, as well as supporting facilities, utilities and infrastructure, for the downtown area. While Lower Manhattan is a center of world finance and a major economic engine for the entire region, it has also become the fastest growing residential neighborhood in New York City and a major

destination of regional, national and international travelers. For these reasons, revitalization of Lower Manhattan needed to include cultural and other amenities that helped make the area a lively environment all day, every day.--The long-term presence of an essentially empty, excavated space in the heart of New York's financial district would have become a blight that would make the area less attractive for businesses, residents and visitors. It is important to the economy of New York City that, as business leases in Lower Manhattan came up for renewal, businesses would have confidence that the Project Area would be redeveloped as quickly as possible to reduce its blighting effect on the immediate area.--BENEFICIARIES--The thousands of relatives and friends of the nearly 3,000 victims of September 11, 2001 and February 26, 1993 have and will benefit from the memorial to their loved ones. Others immediately affected by the events, including survivors, area residents and workers, have equally benefited from the project. This project has and will continue to also benefit businesses, workers, residents, and visitors throughout Lower Manhattan.--SCHEDULE--Activities related to the acquisition and deconstruction of property occurred in 2004 and 2005. The full implementation of the Memorial Program began in 2004 and extend through 2015. --FEDERAL AND OTHER RESOURCES-- The total estimated cost for this portion of the World Trade Center Memorial and Cultural Program was \$164 million in the initial Partial Action Plan 7. Amendments to Partial Action Plan 7 provided for an additional \$75,539,780.00, increasing the allocation to \$239,617,180.00 in Partial Action Plan 7. Amendments to Partial Action Plan S-2 provided for an additional \$59,925,000, bringing the total HUD CDBG allocation to this project to \$299,542,180. A settlement agreement with the Prior Insurers resulted in a contribution of \$102,356,152 to the project and a settlement agreement with Deutsche Bank resulted in a contribution of \$3,800,000 to the project. LMDC sought and obtained further recovery of project costs from the general contractor that performed the deconstruction, Bovis Lend Lease through a litigation settlement agreement. As part of this agreement LMDC recovered \$40,000,000 from the general contractor.

Location Description:

The Project Area is located in Lower Manhattan on two sites: (i) the WTC Site, an approximately 16 acre super-block, bounded by West, Vesey, Church, and Liberty Streets; and (ii) the adjacent two city blocks south of the WTC Site, one bounded by Liberty, Washington, Albany and Greenwich Streets, and the other bounded by Liberty, West, Cedar and Washington Streets, and a portion of Liberty Street between those parcels and the WTC Site (collectively, the Southern Site).-- Specific parcels acquired consist of (a) 130 Liberty Street, on which the Deutsche Bank building is situated (the 130 Liberty Site), (b) 155 Cedar Street, on which the St. Nicholas Church was situated (the Church Site), and (c) 140 Liberty Street. All of the structures situated on these parcels were destroyed or severely damaged on September 11, 2001. The acquisition of the Church Site and the Milstein Site, are the subject of another partial action plan.

Activity Progress Narrative:

During the second quarter of 2017, spending was limited to approximately \$16,000 which covered legal costs associated with 130 Liberty Street property.

The Port Authority of New York and New Jersey (PANYNJ) continues to use the northern portion of the site for the below grade Vehicular Security Center while the elevated Liberty Park is open to the public. Construction on the Greek Orthodox Church (GOC) has progressed. Part of the southern portion of the site is being used by the PANYNJ while the southern-most portion serves as a public plaza on a temporary basis until more permanent plans are implemented.

Tables, chairs, benches and various plantings have been placed on the plaza portion of the site for public use as we contemplate other programming that would further benefit residents, workers and visitors to the area.

Activity Description:

PROJECT DESCRIPTION--LMDC plans to acquire certain real property immediately south of the World Trade Center in order to implement the World Trade Center Memorial and Cultural Program. In addition to the World Trade Center Site, the Project Site for the approved World Trade Center Memorial and Redevelopment Plan comprises several parcels of land just south of the World Trade Center Site, collectively referred to as the Southern Site. LMDC acquired one of the parcels (130 Liberty Street) in August 2004 through funds from Partial Action Plan 7, acquired another parcel (140 Liberty Street) in February 2006 through funds from Partial Action Plan 9, and plans to acquire two other parcels, along with the underground portions of adjacent streets necessary for infrastructure: (1) 155 Cedar Street, the location of the St. Nicholas Greek Orthodox Church prior to September 11th; and (2) the portion of Washington Street between Cedar and Liberty Street, a public New York City street that has been closed since September 11th. These parcels along with 140 Liberty Street form the western portion or "remainder" of the Southern Site. This area will serve as open space at grade, space for a new St. Nicholas Greek Orthodox Church, and allow critical infrastructure to be built and connected to the WTC Site below grade.--The costs include all costs associated with acquisition of the property necessary for the implementation of the WTC Plan, particularly the construction of the Memorial and Cultural Program. Allowing for the integration of the Southern Site into the WTC Plan will permit construction of new open space, subgrade truck security, and underground bus parking as well as reduction of density on the WTC Site that will permit reservation of sufficient space for the proposed memorial and cultural facilities on the WTC Site itself. Projected costs include services of legal and other consultants to examine the property, hold hearings, issue notices, make findings, obtain insurance, and prepare documents as may be appropriate. -- The activities relating to the Memorial Program, as outlined in this Partial Action Plan, may involve condemnation of one or more parcels on the Southern Site, requiring a prior public hearing under New York State Eminent Domain Procedure Law where public input will be solicited. LMDC's Board of Directors shall review and

consider the record of such hearing, together with any documents or written comments submitted in connection with the proposed condemnation. After Board review of such documents, LMDC would proceed to condemn the property if, and only if, the Board then authorizes such condemnation proceedings. AMENDMENTS TO ACQUISITION OF REMAINDER OF SOUTHERN SITE--Partial Action Plan 9 as amended was approved by HUD on October 6, 2005. LMDC proposed the allocation of an additional \$20,000,000 for costs relating to the acquisition of real property for the Southern Site in order to implement the World Trade Center Memorial and Cultural Program, increasing the total allocation for this activity from to \$64,500,000. These additional costs result from (1) increases in the valuation of the land at 155 Cedar Street, at 140 Liberty Street, and Washington Street between Cedar and Liberty Streets, and (2) the addition of interests in below-grade portions of Cedar and Liberty Streets adjacent to the privately-owned land. Otherwise, the categories of costs remain the same: acquisition of real property; real estate appraisal services; legal services; public hearings, notices and advertisements; insurance. BENEFICIARIES--The thousands of relatives and friends of the nearly 3,000 victims of September 11, 2001 and February 26, 1993 will benefit from the memorial to their loved ones. Others immediately affected by the events, including survivors, area resident and workers, will equally benefit from the project. This project will also benefit businesses, workers, residents, and visitors throughout Lower Manhattan. ESTIMATED COST--The total estimated cost for this portion of the Memorial Program is not to exceed \$63,000,000, as outlined in the approved amendments to Partial Action Plan 9.

Location Description:

LOCATION--(1) 155 Cedar Street where the St Nicholas Greek Orthodox Church was located prior to September 11th; (2) 140 Liberty Street where an outdoor parking lot was located prior to September 11th; and (3) the portion of Washington Street between Cedar and Liberty Street, which is a public New York City street. These three parcels form the western portion or remainder of the Southern Site.

Activity Description:

LMDC allocated \$60,004,000 for the planning and development of the World Trade Center Performing Arts Center. This proposed cultural building on the rebuilt WTC Site will provide a variety of important uses as part of the overall redevelopment plan. The Performing Arts Center will help create a world class visitor destination that will contribute to the economic development of the site and the area, while improving the quality of life for those who live and work in Lower Manhattan. Programming will be broad and diverse, and will serve both businesses and residents. Initially The Performing Arts Center was proposed to contain a 1,000 seat theater venue that considered housing the Joyce Theater as well as a 200+ seat second theater. A smaller building is now being planned. Public spaces and activities that will be part of the Performing Arts Center could include educational programs for school groups and community workshops. The Performing Arts Center is also expected to house rehearsal space for both in house rehearsals as well as for the large arts community in New York and specifically in Lower Manhattan.

The work on the Performing Arts Center, which began in 2004, is continuing and includes activities such as planning, determination of subgrade requirements, and coordination with the Port Authority of New York and New Jersey on the WTC site.

In November 2010, the LMDC Board allocated an additional \$100 million in Grant #2 for PAC construction costs and PAC-related strategic planning efforts in the future. Approximately \$1 million would be used to support (i) the creation and administration of a non-profit entity dedicated to the PAC (PAC, Inc.) that would be governed by a Board of Directors and operate with some key staff, and (ii) strategic planning costs related to further study and development of the PAC. The bulk of the allocation, \$99 million, would be used for the future construction costs of the PAC, subject to successful achievement of strategic planning milestones, which must include (i) the creation of the non-profit PAC, Inc., (ii) the constitution of a PAC, Inc. Board of no less than five members, and (iii) funding of

at least \$25 million committed by those PAC, Inc. Board members. It is contemplated that the PAC, Inc. Board would later raise additional private funds to supplement the federal funds being committed by LMDC.

Location Description:

PROJECT AREA--The WTC Plan Project Area is located in Lower Manhattan on two sites: (i) the WTC Site, an approximately 16 acre super block, bounded by West, Vesey, Church, and Liberty Streets; and (ii) two adjacent city blocks south of the WTC Site (one bounded by Liberty, Washington, Albany and Greenwich Streets, and the other bounded by Liberty, West, Cedar and Washington Streets), Washington Street between Liberty and Cedar Streets, and subsurface portions of Liberty Street and other streets in and around those blocks (collectively, the "Southern Site").

Activity Progress Narrative:

During the second quarter of 2017, no payments were made from this activity; however, three reimbursement requests in the amount of \$552,032 were paid to the WTC PAC Inc. from the Grant 2 activity for ongoing design work. One additional WTC PAC reimbursement request totaling \$514,201 was received in this period and is under review. The WTC PAC, Inc. organization continues to move forward with their new chairperson (Barbara Streisand) and a contribution of \$75M from the Ronald Perelman Foundation and tens of millions in other pledges are being executed. During this period, WTC PAC Management began interviewing prospective candidates for Construction Manager/General Contractor services as this project begins to transition to the construction phase. Also, WTC PAC management selected a contractor to design, fabricate and install oversize scene and acoustic doors at the Perelman Center. This project is proceeding on schedule.

--WORLD TRADE CENTER MEMORIAL AND MEMORIAL MUSEUM-- This project is part of the World Trade Center Memorial and Cultural Program, which also includes the Memorial Museum (W-MUS-0171), 130 Liberty Street (130L-0171), Southern Site (SSite-0171) and the Performing Arts Center (W-ART-0171). LMDC is committed to the development of an appropriate memorial and museum to commemorate the events of September 11. This program includes the planning and construction of a Memorial and Memorial Museum, and the planning and possible construction of memorial-related improvements and cultural uses at the Site. LMDC conducted an international competition on a Memorial design, and in January 2004 announced the selection of Reflecting Absence by Michael Arad and Peter Walker, two reflective pools set in the footprints of the WTC and surrounded by an open plaza of trees. LMDC and the National September 11th Memorial and Museum at the World Trade Center (Foundation) engaged in a broad spectrum of activities contributing to the planning, design, and implementation of the Memorial and Memorial Museum. The funding provided by LMDC and its partners has primarily been used for planning, design and construction of the Memorial and Memorial Museum. In addition, funding also provides for multimedia exhibitions, and three annual productions of Tribute in Light in 2012, 2013, and 2014. In the Tribute in Light production two beams of light rise from a site near the WTC site into the night sky to honor those lost on September 11th and to celebrate the spirit of all the New Yorkers who have worked to rebuild and renew New York City.

ALLOCATIONS IN PARTIAL ACTION PLAN FOR THE MEMORIAL AND MEMORIAL MUSEUM--

LMDC has allocated a total of up to \$325,029,972 for the National September 11th Memorial and Museum at the World Trade Center.

The allocation includes the following: Partial Action Plan 8 (\$64,525,972), Partial Action Plan 11 (\$75,000,000),

Partial Action Plan 12 (\$100,100,000), Final Action Plan (\$45,810,000), and Partial Action Plan S-2 (\$39,594,000).

--BENEFICIARIES--The tens of thousands of relatives and friends of the nearly 3,000 victims of September 11, 2001 and February 26, 1993 will benefit from the memorial and museum to honor their loved ones. Others immediately affected by the events, including survivors, area residents and workers, will equally benefit from the project. This project has and will continue to also benefit the millions of visitors to the memorial and museum, which will allow them to honor those who were killed in the attacks. The memorial and museum fosters greater public awareness of the events of February 26, 1993 and September 11, 2001, and their impact on the victims' families, survivors, area residents, New York City, and beyond.

--SCHEDULE The Memorial opened on September 11, 2011 and the Museum opened in May 2014. The Memorial and Cultural Program began in 2004 and will extend into 2016, including the planning, design, and development of the cultural institutions on the site.

--FEDERAL AND OTHER RESOURCES--The Memorial and Memorial Museum are funded with a combination of public investment and private funds donated by individuals and groups to the National September 11th Memorial and Museum at the World Trade Center Foundation, Inc. (NS11MM). The NS11MM uses its own resources to engage in fundraising for both public sector and private sector funds, and individual donations, to accomplish its mission.

--TOTAL ESTIMATED COST--The total estimated LMDC cost for this activity, including funds provided in Partial Action Plans 8, 11, 12, S-2 and the Final Action Plan for ongoing design, construction, program planning, multimedia exhibitions, and Tribute in Light Productions is up to \$325,029,972.

Location Description:

--PROJECT AREA--The WTC Plan Project Area is located in Lower Manhattan on two sites: (i) the WTC Site, an approximately 16 acre super block, bounded by West, Vesey, Church, and Liberty Streets; and (ii) two adjacent city blocks south of the WTC Site (one bounded by Liberty, Washington, Albany and Greenwich Streets, and the other bounded by Liberty, West, Cedar and Washington Streets), Washington Street between Liberty and Cedar Streets, and subsurface portions of Liberty Street and other streets in and around those blocks (collectively, the "Southern Site").

Activity Progress Narrative:

No funds were expended under this activity during this quarter and it is considered closed. However, during this quarter LMDC processed and paid approximately \$744,000 in reimbursements requests to the National 911 Memorial and Museum organization (NS11MM) from the Grant 2 activity. These payments were for expenses related to the Tribute in Light events held in the years 2015 and 2016, for final Pavilion construction and fit-out costs as well as for other NS11MM related charges. LMDC has been Tribute in Light's primary supporter since its inception. LMDC support has enabled the NS11MM to continue producing this important installation while identifying longer-term funding sources to sustain the program. On clear nights, tribute in Light can be seen from over 60 miles away and it has become a widespread, meaningful image in artwork and photography. These payments will now conclude the grant funding and this project will be moved to inactive status.

In 2016, the NS11MM welcomed over six million visitors to the 9/11 Memorial and nearly three million visited the Memorial Museum, which opened in May 2014. Since opening, visitors have come from all 50 U.S states and from around the world to visit the WTC Memorial and Memorial Museum.

Activity Description:

--MUSEUM PAVILION (FORMLY KNOWN AS THE VISITOR ORIENTATION AND EDUCATION CENTER)-- This project is part of the World Trade Center Memorial and Cultural Program, which includes the Memorial (W-MEM-0171), 130 Liberty Street (130L-0171), Southern Site (SSite-0171) and the Performing Arts Center (W-ART-0171). This program includes the planning and construction of a Memorial and Memorial Museum, and the planning and possible construction of memorial-related improvements and cultural uses at the Site. The Pavilion will welcome visitors to the WTC site and serve as a transition from the surrounding city to the Memorial and Memorial Plaza. Programming in the Pavilion will complement the Memorial and Memorial Museum, and will serve as the entry to the Museum, with Snohetta serving as the project architect for the building. The northeast corner of the Memorial Plaza is being designed by Peter Walker Partners Landscape Architects. --ALLOCATION IN PARTIAL ACTION PLAN-- The Pavilion was originally funded in PAP 8 as the WTC Cultural Complex, a significantly larger building. The PAP was amended and the project scaled back to its current form. In 2006, The State of New York allocated \$80,000,000 to the project. That enabled LMDC to reduce its funding allocation from \$33,460,000 to \$9,521,000 for the planning and design of the Pavilion. --BENEFICIARIES-- Those immediately affected by the events, including family members of victims, survivors, area residents and workers, will equally benefit from the project. This project will also contribute to the overall economic recovery of Lower Manhattan and New York City. --SCHEDULE-- The Memorial and Cultural Program began in 2004. FEDERAL AND OTHER RESOURCES-- The memorial and cultural institutions will be funded with a combination of private funds donated by individuals and groups to the World Trade Center Memorial Foundation, Inc., public investment, and investment that will be made by the cultural institutions that are selected to locate on the site. --TOTAL ESTIMATED COST-- The total estimated cost for this activity has been decreased from \$33,460.00 to \$9,521,000. 00

Location Description:

--PROJECT AREA--The VOECS is located in the northeast corner of the Memorial Plaza, bounded by Church, Fulton and Greenwich Streets.

Match Contributed	\$0.00	\$0.00

Activity Description:

PROGRAM DESCRIPTION: LMDC originally allocated \$10,420,000 and later reduced the authorization to \$9,420,000 to the East River Waterfront Access Program. The goal of the project is to connect the East River Waterfront to its closest Lower Manhattan neighborhoods of South Street Seaport, Chinatown, the Lower East Side, and East River Park. The program is critical to improving public access to and utilization of the waterfront area. The project would improve the east-west connection to the Waterfront by enhancing the historic slips of Catherine, Peck, Montgomery and Rutgers that were once an integral part of the working waterfront and today function only as city streets and roadbeds. Once a place to berth ships for repairs and maintenance, the slips have been filled in and leave a wide corridor between City blocks. The East River Waterfront Access project will redesign Catherine Slip, Rutgers Slip, and Montgomery Slips as median open spaces with unifying elements such as seating, paving, and plantings. Peck Slips historic character will be reinforced by a new vibrant passive open space plaza with a similar planting vocabulary and punctuated by a water feature, recalling the days when the East River actually flowed into the slips. The project improves the existing conditions on these slips by providing multiple easy and attractive pedestrian access points from the waterfront to the interior of Lower Manhattan.

PROPOSED BENEFICIARIES: This project will benefit residents, workers, and visitors to Lower Manhattan with its enhanced open space. The neighborhoods directly adjacent to the project are the South Street Seaport, Chinatown and the Lower East Side, all of which would benefit from the project.

SCHEDULE: Activities related to this project began in 2006 and will continue through 2017.

ALLOCATIONS IN PARTIAL ACTION PLAN: In September 2005, \$10,420,000 was allocated in PAP 10 for this activity. In June 2009, the authorization was reduced by \$1M to \$9,420,000.

Location Description:

PROJECT AREA--The project proposes east-west access improvements and enhancements to existing open spaces at Peck Slip in the South Street Seaport area; Catherine Slip and Montgomery Slip in Chinatown and Rutgers Slip in Lower East Side. North-south access improvements are made south of East River Park to the upland portion of Pier 42.

Activity Progress Narrative:

Construction of Rutgers, Montgomery and Catherine Slips is complete.

The New York City Department of Parks and Recreation (NYCDPR) and the contractor halted design work related to Peck Slip. LMDC has requested the most current Peck Slip design to determine its practicality in the current environment which will impact our involvement going forward.

Approximately \$540,000 in reimbursement requests were paid this quarter.

Match Contributed	\$0.00	\$0.00

Activity Description:

LMDC has allocated \$169,580,000 for the East River Waterfront Esplanade and Piers Project. \$139,580,000 in Grant 1 and \$30,000,000 in Grant 2. The project involves the redevelopment of the East River Waterfront Esplanade and Piers, north of Battery Park and south of East River Park, and would revitalize Lower Manhattan communities and the East River Waterfront. The project will solve a number of issues in the area that hinder the realization of the East River Waterfronts full potential. Such issues include under-utilized spaces (parking lots below the FDR and vacant piers, the absence of sidewalks, and the lack of amenities which dramatically decreases potential visitation to the site.) The project will also fill in the missing esplanade in the Lower Manhattan Greenway between Old Slip and Peter Minuet Plaza. Once constructed, the revitalized waterfront would be an approximately two-mile esplanade that includes a mix of open space, cultural and recreational uses, providing a link between the Financial District, Chinatown and the Lower East Side to the waterfront. As a result of this project, the waters edge will be experienced in new ways along the East River. Improvements to the esplanade are meant to harmonize traditional waterfront uses with new commercial, cultural and community programming and invigorate the area with a fresh, innovative design approach. The Plan provides amenities for passive recreation. The existing bike and pedestrian paths will be improved, expanded, and realigned to provide for unencumbered movement without infringing upon other uses along the esplanade. New pavilions are planned underneath the FDR Viaduct and may accommodate a variety of retail, cultural and/or community uses to complement the public open space experience. The Plan calls for improvements to the FDR Viaduct by cladding the elevated roadway to reduce vehicular traffic noise from above and enhance the ambient lighting below. Several piers on the East River will be transformed into recreational spaces, where active water-related uses would be encouraged alongside passive recreational uses.

Location Description:

The project proposes revitalization of the area running along the East River Waterfront from Battery Park to the south, Pier 36 to the north, and South Street/FDR Drive to the east in Lower Manhattan.

Activity Progress Narrative:

The East River Waterfront Esplanade & Piers Project continues to progress as scheduled. During the quarter the subrecipient continued to perform pre-construction activities for Package 4. On Pier 35 the contractor continued to perform structural steel work and also worked on shop drawings for future construction at that site. NYCEDC is also in the process of procuring a design contractor for the North segment of the project (located between Peck Slip and Catherine Slip).

Approximately \$195,000 in reimbursement requests were paid this quarter while an additional \$1.7 million in reimbursement requests were received and are under review.

Activity Description:

\$28 million has been allocated for design and construction costs related to improvements of Pier 42 and adjacent areas located between the East River Esplanade to the south and East River Park to the north. This \$14 million allocation in Grant 1 is for design and construction including the planned demolition abatement of a shed to the South of the project area. There are two other allocations of \$2 million in Grant 2 for planning and design and \$7 million for improvements described below. The specific scope will be dependent on the outcome of the planning process funded by the \$2 million allocation. In general terms, this project will likely include improvements to the area such as landscaping to increase green open space, public access to the waterfront, improved views of the landscape and NYC harbor, water dependent public activities, expansion of the bike path and greenway, and a variety of park recreational activities.

Location Description:

The project proposes revitalization of Pier 42 and adjacent areas located between the East River Esplanade to the south and East River Park to the north.

Activity Progress Narrative:

During the quarter, the New York City Department of Parks and Recreation (NYCDPR) completed their work associated with this project and turned the project over to the New York City Economic Development Corporation (NYCEDC). NYCEDC focused on procurement activities for Phase1A (demolition and abatement) and the Phase 1B

(upland and park construction) of the Pier 42 Project. McKissack was selected to perform the construction management services on Phase 1A. Matthews Neilson Landscape Architects who performed the initial design work for this project under the NYCDPR, was selected as the design contractor for Phase 1B. NYCEDC and contractors are currently working on preparing requests for proposals to procure subcontractors needed for the project. No reimbursement requests were paid from this grant during the quarter.

Activity Description:

PROJECT DESCRIPTION: LMDC has allocated \$12,000,000 to the New York City Housing Preservation Department to identify and administer projects that (1) provide affordable housing for low, moderate and middle income residents through the preservation of Mitchell Lama or other affordable housing complexes, acquisition of new land or properties for affordable housing or the creation of incentives for the private sector to develop affordable housing; (2) are located in Lower Manhattan; (3) spend approximately \$200,000 per dwelling unit preserved or created; and (4) are consistent with the goals and principles outlined in HPDs The New Housing Marketplace: Creating Housing for the Next Generation. SCHEDULE: Projects funded by the Affordable Housing Program were originally expected to be identified by December 31, 2012. The program is being redefined to meet current market conditions. PROGRAM OBJECTIVE: The creation of affordable housing is as a key component of a strong and vibrant Lower Manhattan community. As stated in LMDCs Principles and Revised Preliminary Blueprint for the Future of Lower Manhattan expanding the residential population [would] create a strong sense of community throughout Lower Manhattan, and this housing must be for a wide variety of income levels. The Affordable Housing Program would help achieve that outcome. BENEFICIARIES: The Affordable Housing Program will benefit moderate and low income residents of Lower Manhattan. TOTAL ESTIMATED COST: This Final Action Plan allocates \$12,000,000 of federal funds for affordable housing. Other government and/or private resources may supplement these funds.

Location Description:

The project area for the Affordable Housing Program is defined as Manhattan, south of Houston Street.

Activity Progress Narrative:

The Affordable Housing program subrecipient agreement is in process of being amended to more specifically address planned improvements to affordable housing properties in lower Manhattan. Plans are underway to begin significant renovations at as many as six locations. Additional funds have been added to this housing activity from activity CTLES 0600 thus consolidating all available housing funds. The related subrecipient agreement will be amended to reflect the increased grant value. This funding will be available for acquisitions of new and renovations or improvements to existing affordable housing properties. No spending has taken place this quarter.

Match Contributed	\$0.00	\$0.00

Activity Description:

PROJECT DESCRIPTION: LMDC has allocated \$6 million for the rehabilitation of Masaryk Towers, a 1,110-unit Mitchell-Lama development located on Columbia Street on the Lower East Side. This cooperative development primarily consists of low-income tenants. Masaryk Towers was built in the 1960's and many of its systems have outlived their useful life. Replacing these systems would force a significant rent increase. Although Masaryk Towers has raised carrying charges and imposed a capital assessment, an estimated \$6 million in capital work is still needed. LMDC would provide \$6 million to Masaryk Towers as a grant, since shareholders cannot afford additional debt service to address these issues. These funds would have a tremendous impact on preserving the affordability of the development. In addition, this investment would preserve the units for the foreseeable future, as HPD will implement a 15-year agreement that will assure that Masaryk Towers will not opt-out of the Mitchell-Lama program following capital repairs. The City of New York has worked to preserve Masaryk Towers by restructuring their mortgage in order to lower the debt service, and has also made attempts to limit carrying charge increases to 27%, phased in over three years. LMDC funds for this project would allow the City to preserve the existing affordable units in a building that would otherwise continue to deteriorate, and would also assist in the City's efforts to limit the increase in carrying charges to the 27% as previously approved.

PROPOSED BENEFICIARIES: The proposed beneficiaries for this project include low- and moderate-income households. The Masaryk Towers cooperative development primarily consists of low-income tenants, where more than half of the shareholders qualify for Section 8 vouchers. Based upon an analysis performed in 2000, 45% of the unit total are low-income households, and 65% of the unit total are moderate-income households.

SELECTION OF BENEFICIARIES: Masaryk Towers was selected in order to preserve affordability of the development to its tenants, and to perform needed improvements without transferring costs to the tenants. These improvements also caused the City to sign an agreement that Masaryk Towers would remain in the Mitchell-Lama program 15-

years after work was completed.

Location Description:

Masaryk Towers is located south of Houston Street, on Columbia Street, bound by Pitt, Stanton and Delancey Streets.

Activity Description:

LMDC GENERAL ADMINISTRATION --- LMDC engages in broad planning and administration activities relating to the recovery, remembrance, and rebuilding efforts in Lower Manhattan, defined by LMDC as the entire area of Manhattan south of Houston Street.---LMDCs administration activities include extensive public information and coordination activities relating to its LMDC planning work. As part of its coordination activities, LMDC serves as a facilitator of outreach and discussions between affected communities as well as the public at large and government agencies and officials. LMDCs public information work includes: large scale public meetings and hearings; periodic printed newsletters and reports; an up-to-date, comprehensive, and interactive web site (www.RenewNYC.com); extensive electronic communications; and other public outreach and participation efforts. In addition, LMDC maintains its network of community contacts through its advisory councils.---LMDC's administration activities also include all functions necessary to administer the Community Development Block Grants including financial operations, legal services, monitoring, auditing, investigations, and general administrative and office functions.---HUD has authorized the use of up to 5% of the total grant to LMDC for costs associated with planning and administration activities, including costs for overhead, personnel, and consultants.

Location Description:

General administrative activities are centralized in LMDC's office at: 22 Cortlandt Street, New York, NY, 10007, and cover activities within Lower Manhattan.

Activity Progress Narrative:

LMDC continues to maintain a small staff and office space to carry out its planning and community development activities, including project oversight, environmental and regulatory compliance monitoring, project coordination, and payment processing. LMDC staff monitored the activities of more than 50 subrecipients and consultants, amended three contracts, and completed work on three subrecipient projects, while distributing approximately \$3 million in payments to subrecipients and consultants furthering the redevelopment of lower Manhattan. Just over \$235,000 in administrative costs were charged to this activity for the quarter.

The total administrative spending continues to fall within our administrative budget, and on a cumulative basis, administrative costs continue to remain far less than the 5% allowable for administrative expenses.

Activity Description:

LMDC PLANNING - ECONOMIC ANALYSIS --- LMDC engages in broad planning and administration activities relating to the recovery, remembrance, and rebuilding efforts in Lower Manhattan, defined by LMDC as the entire area of Manhattan south of Houston Street. LMDC planning activities include the site planning for the World Trade Center site and the areas immediately surrounding the site. The agency's planning activities also include the other neighborhoods in Lower Manhattan that have been affected by September 11th and its aftermath. Specifically, LMDC planning activities include expansive analyses of Lower Manhattan's transportation, traffic, housing and related amenities, open space, retail development, and economic development capacity, needs, and potential. Based on these analyses, LMDC will develop and propose concept plans for specific areas and projects in Lower Manhattan. LMDC planning activities focus on the administration of the competition and planning for the memorial. As part of the planning process, LMDC engages in economic analysis activities focusing on the economic impact and financial assessment of proposed development projects and programs for Lower Manhattan. HUD has authorized the use of up to 5% of the total grant to LMDC for costs associated with planning and administration activities, including costs for overhead, personnel, and consultants. The end date for this activity encompasses anticipated programmatic and/or financial activity.

Location Description:

The office of the Lower Manhattan Development Corporation is located at 22 Cortlandt Street, New York, NY 10007.

Activity Progress Narrative:

All funds from this activity have been expended for administrative purposes. This activity can now be closed.

Activity Description:

LONG-TERM PLANNING - WEST STREET PLANNING --- Long-term planning provides funding to plan for public investments including a transportation plan that positions Lower Manhattan as the gateway to the region and the world, a plan that transforms public boulevards into grand public promenades, and one that capitalizes on the underutilized resources of Lower Manhattan. The projects funded in long-term planning meet some or all of the following criteria: Consistent with HUD eligibility criteria; Consistent with the Lower Manhattan Development Corporations Principles and Preliminary Blueprint for the Future of Lower Manhattan; Consistent with the Lower Manhattan Development Corporations A Vision for Lower Manhattan: Context and Program for the Innovative Design Study; Consistent with Mayor Michael Bloomborgs New York Citys Vision for Lower Manhattan; and Enhancement of Lower Manhattan transportation services, connecting Lower Manhattan to the world. --- West Street Planning --- New York State Department of Transportation (NYS DOT) is responsible for post-September 11th repair of Route 9A, also known as West Street in Manhattan, as well as the planning for future enhancements. West Street is a multi-lane, 260-foot wide highway serving both regional and local traffic in Lower Manhattan. The street acts as the western boundary for the World Trade Center site. West Streets traffic conditions and width -- more than twice as wide as a typical Manhattan avenue -- make it a barrier for pedestrians by separating Battery Park City, the World Financial Center, and the Hudson River waterfront from the rest of Lower Manhattan. Significantly, West Street acts as a divide between the World Trade Center site, the emerging residential community south of Liberty Street, and the existing Battery Park City community. Residents complain about the potential safety hazards of crossing West Street and retailers in the World Financial Center suffer from difficult access. Since September 11th, there has been extensive discussion of the best ways in which to accommodate the large traffic volumes that flow along West Street, while also improving the pedestrian experience and making the areas adjacent to West Street more amenable to residential and commercial development. The portion that runs along the length

of the World Trade Center site is of special concern since it must provide an appropriately dignified and aesthetically graceful setting next to the future World Trade Center memorial. NYS DOT has considered numerous design concepts to consider all significant factors. Goals for the design of West Street include creating better east-west pedestrian connections, improving the pedestrian environment, easing surface congestion, and accommodating the need to create a quiet, respectful site for the memorial. NYS DOTs work on West Street included necessary technical services related to the repair and restoration of essential transportation facilities and planning for future enhancements to West Street.. --ALLOCATIONS IN PARTIAL ACTION PLANS -- Partial Action Plan 4 has allocated \$2,705,848 for this project. (Additional funds had originally been allocated to West Street Planning. In 2005, \$1.8 million was reallocated to Short-Term Capital Projects for West Street Pedestrian Connections).

Location Description:

West Street, south of Chambers Street, in Manhattan.

Activity Progress Narrative:

There were no charges applied to this activity during the second quarter of 2017 as no funds were spent this past quarter. The West Thames Street Pedestrian Bridge is in the construction phase. Further details are provided in activity LM 300-Bridge.

Activity Description:

--THE DRAWING CENTER --The Drawing Center is the only fine arts institution in the country to focus solely on the exhibition of drawings. The Drawing Centers new location will allow the institution to reach larger and more diverse audiences through a variety of exhibitions and programs, as well as expand and broaden its educational programming. The selected site for the Drawing Center had to be located in Lower Manhattan, south of Houston Street, and must contribute to the revitalization of Lower Manhattan. Any transaction related to the Drawing Center's new location, would be subject to the evaluation and approval of LMDC. The specific funding amount to be provided to the Drawing Center would be subject to review and approval by LMDC, and determined based upon a number of factors, including the size and nature of the transaction; the positive impact on area businesses, residents, visitors, and other cultural organizations; and the projects potential to contribute to the long-term revitalization of Lower Manhattan. The Drawing Center was selected as part of the Invitation to Cultural Institutions (ICI) issued by LMDC on June 30, 2003, to solicit information from cultural institutions and organizations interested in locating on or participating in cultural programming at the WTC site. It was selected through a competitive process from among 113 submissions of interest from organizations interested in locating on or participating in cultural programming at the WTC site. In summer of 2005, the Drawing Center, in coordination with LMDC, began a search for an alternative location that would better serve Drawings Centers needs while also enabling the institution to contribute to the revitalization of Lower Manhattan. The Drawing Center had established general characteristics appropriate for its future home, conducted feasibility studies, and identified several sites for further exploration. LMDC worked with the Drawing Center (TDC) during 2008 to complete and execute a subrecipient agreement for \$256,092 to to cover planning costs already incurred by TDC between February 2006 and February 2008. Since the November 2005 Board authorization, TDC conducted a search for an alternate site in Lower Manhattan. Initially, TDC along with The City of New York identified the New Market site in the South Street Seaport as a possible

location. Although certain costs were incurred in connection with that potential location, the City and TDC concluded subsequently that the New Market site was untenable. After further searching, an empty lot at the intersection of South and John Streets at Burling Slip (Burling Slip Site) was chosen by TDC and the City for due diligence and site analysis. Owned by the City, the site was undeveloped and was leased to the South Street Seaport Museum. In February 2007, TDCs Board of Directors voted to proceed with a move to the new site. The Citys Department of Cultural Affairs (DCA) then commenced lease negotiations with the South Street Seaport Museum to transfer the lease for the lot to TDC. DCAs and TDC lease negotiations with the South Street Seaport Museum ended in February 2008 and TDC decided not to pursue negotiations for the Burling Slip Site. In parallel with the ongoing lease negotiations, TDC proceeded with certain planning activities and revisions to their strategic plan, fundraising plan and project budget. The proposed subrecipient agreement in an amount up to \$256,092 reimbursed TDC for expenses already incurred by TDC for planning work done for each of the New Market site and the Burling Slip Site. LMDC funded costs of TDCs Owners Representative, Architect Advisor, the Strategic Plan and Operations Consultant, and other environmental consultants for work completed at both sites. In January 2011 the LMDC Board approved the reduction of TDCs overall \$10,000,000 (\$2 Million in PAP 11 and \$8 million in FAP) allocation by \$6,745,440 to \$3,254,560. The remaining funds were authorized for an expansion of TDCs current location, 35 Wooster Street. --PROJECT OBJECTIVES--The objective of this activity is to contribute to Lower Manhattan's cultural life, benefiting area residents, workers, businesses and area cultural institutions. The Drawing Centers new location in Lower Manhattan would allow the organization to reach a larger and more diverse audience through its exhibitions and programs, improve and expand its services to artists, broaden and strengthen educational programming, and pursue collaborations with other cultural institutions in the area to build a dynamic community for arts and culture in Lower Manhattan. The Drawing Centers new location would address or prevent blight, and benefit low and moderate income persons. It would also assist in the revitalization of Lower Manhattan and successfully benefit area businesses, residents, and visitors. --BENEFICIARIES--The Drawing Centers new location would benefit Lower Manhattan area residents, workers, businesses, and not-for-profit organizations through supporting the area's cultural life. The Drawing Centers new location is intended to benefit low-and-moderate-income communities, address or prevent blight, and meet needs resulting from September 11, 2001.

Location Description:

PROJECT AREA--The project area for the Drawing Center relocation is in Lower Manhattan, south of Houston Street. The selected site for the Drawing Center has contributed to the revitalization of Lower Manhattan.

Activity Description:

The initial Final Action Plan allocated \$60,950,849 for the Lower Manhattan Community Enhancements Fund (CoEF) and the Lower Manhattan Community and Cultural Enhancement Programs (CCEP), as well as additional funding for the Drawing Center. Funding for all CoEF projects and the Drawing Center is included in this activity. However, as certain specific CCEP projects are identified, funds have and will be specifically allocated to each of those projects as its own activity thus reducing this allocation accordingly. --Community Enhancements Funds were allocated by LMDC to not-for-profit organizations and government agencies whose projects support community facilities or programs that (a) provide education, employment, and health care services, and/or (b) recreational or community gathering needs. Also eligible are capital projects to acquire, enhance access to, improve, or rehabilitate existing community facilities. Funding for the CoEF grants was authorized in November 2007 a year after grant applications were due. LMDC convened an advisory panel to help review applications and select appropriate programs. On November 8, 2007 thirty-five grants were approved, totaling \$37,387,000. Shortly thereafter an additional five grants were authorized --The Community and Cultural Enhancement Program addresses a range of community and cultural needs by providing grants, through a competitive selection process, to not-for-profit and government organizations for projects and programs that demonstrate the ability to spur long-term Lower Manhattan revitalization, benefiting area residents, workers, businesses, and visitors. The CCEP program prioritized projects that received planning grants in the first round of cultural funding and new proposals that had the potential to contribute to the development of clusters or corridors of cultural activity in revitalization zones, including the World Trade Center area, Fulton and Greenwich Streets and the waterfronts. CCEP funds were allocated by LMDC to not-for-profit and government organizations that support cultural or community programs or projects that benefit the residents, workers, and communities of Lower Manhattan. LMDC requested proposals which were due by November 5, 2010. On September 7th, 2011 thirty-eight grants were approved totaling \$20 million, \$17 million of which

came from this allocation with \$3 million coming from an education allocation.

PROGRAM OBJECTIVES-- Providing amenities and services necessary to support the residential and business community had emerged as important Lower Manhattan redevelopment objectives. These amenities were expected to serve as a catalyst for increased residential, commercial, retail, and other neighborhood activities. In realizing this objective, the Community Enhancement Funds (CoEF) and Community and Cultural Enhancement program (CCEP) were intended for projects in Lower Manhattan that would meet the needs resulting from the events of September 11, 2001, address or prevent blight, and benefit low-and-moderate-income communities. Funded projects would have the capacity to spur the revitalization of Lower Manhattan and successfully benefit area businesses, residents, and/or visitors. **BENEFICIARIES--**The Lower Manhattan CoEF and CCEP funds will benefit Lower Manhattan area residents, workers, businesses, and not-for-profit organizations. Funding has and will continue to benefit low-and moderate-income people, address or prevent blight, and meet needs resulting from September 11, 2001.

Location Description:

The project area is Lower Manhattan, on or south of Houston Street.

Activity Progress Narrative:

This activity includes funds available for three Community and Cultural Enhancement Program (CCEP) grants that have not been executed as well as four Community Enhancement Fund (CoEF) program grants that remain open. Over 80% of the \$40.3 million allocation in this activity has been paid to the nearly 40 CoEF grant recipients providing significant community enhancements throughout lower Manhattan. Just under \$14,000 was charged to this activity over the past quarter. New York City Health and Hospitals Corporation (NYCHHC) completed their \$257 million modernization project which included constructing and outfitting approximately 30,000 square feet of third floor space that provides 50 fully equipped treatment rooms for the purpose of providing healthcare services for women and children. The NYCHHC reimbursement requests and grant terms are under review to determine costs that can be reimbursed. We have amended the City of New York Parks Department subrecipient agreement for the Corlears Hook Park project extending the contract and defining the project scope which focuses on the adjacent comfort station. The initial phase involving the construction of a ball field was completed without the use of LMDC funds. It is anticipated that this phase of the project will be completed by 2020. The Grand Street Settlement (GSS) planning, design and preconstruction work is ongoing. Approximately \$5,000 was paid during the quarter. Additional construction funding will be provided from the LMDC CCEP grant upon acceptance of the new design which is anticipated by early 2018. The Alliance for Downtown New York project continues on schedule. LMDC Staff continues working with each these grant recipients to further their projects and process outstanding payment requisitions. We are also working with the proposed CCEP grant recipients, such as GSS and the New York City Department of Parks and Recreation, to move their pending projects forward, as well.

Activity Description:

As part of LMDC's Community and Cultural Enhancement Program, ABC No Rio will engage the services of contractors to construct a new 7,600 sq. ft. 4-story building, located at 156 Rivington Street. Construction includes; doubling capacity for public events programming through the extension of the first floor and cellar spaces; creating spaces specifically designed for workshops and programming; providing more efficient insulation and soundproofing; installing an elevator and making the building wheelchair accessible; installing new energy- and water-efficient building-wide systems; and increasing capacity for alternative energy use.

Location Description:

156 Rivington St, New York, NY 10002

Activity Progress Narrative:

The project has been delayed and as reported in the past, project responsibilities have been transferred to the New York City Economic Development Corporation (EDC) from the Department of Design Construction. With this transition, budget and planning changes have taken place. ABC No Rio reported that the project had received an additional \$1.5 million in capital funding from the City and that the City's Office of Management and Budget issued the Certificate to Proceed for the project under EDC.

During this quarter, demolition work was completed with excavation and foundation work expected to begin later

this year. Construction of ABC No Rio's new flagship facility will follow with an anticipated eighteen months schedule.

Activity Description:

As part of LMDC's Community and Cultural Enhancement Program, New York Asian Women Center will provide all the necessary services in connection with outreach, counseling and advocacy of domestic violence victims in Lower Manhattan initially at the Manhattan Family Justice Center, 80 Centre Street, New York, which opened in Fall 2013. The program will continue out of the 32 Broadway location in 2016.

Location Description:

32 Broadway, 10th Flr, New York, NY 10004

Activity Progress Narrative:

LMDC funding assisted NYAWC to expand their domestic violence services to the Asian community where outreach, crisis and advocacy, and consultation services were made available to victims or potential victims. In addition to delivering services, outreach has an educational role, raising the awareness of existing services. This grant has helped achieve that outcome, when the Manhattan Family Center opened in January 2014. NYAWC provides innovative services to remove abuse from their lives and, in turn, improve their health and well-being. Direct services have been administered to over 570 survivors with the help from the LMDC grant.

The time of performance for this grant concluded on December 31, 2016. NYAWC submitted a final reporting narrative highlighting the successful use of the grant funds. LMDC received all documentation to process this grant. A final reimbursement of \$5,673 was paid during this quarter bringing this project to its end. This project is completed and the grant agreement will be moved to the inactive status.

Activity Description:

As part of LMDC's Community and Cultural Enhancement Program, Clemente Soto Velez will engage the services of consultants to design and plan the interior renovation project, at 107 Suffolk Street. The renovation will ensure the ADA compliance of the basement and first floor of the Center, provide access to and safe egress from all areas on the first floor and basement, and upgrade such elements as plumbing, lighting, signage, security, and internal building communications.

Location Description:

107 Suffolk St, New York, NY 10002

Activity Progress Narrative:

During this quarter, LMDC continued evaluating the feasibility of the installation of a building wide fire alarm system as it pertains to the LMDC grant with Clemente Soto Velez (CSV). LMDC has received the invoices from Sage and Coombe's fire alarm engineer Fire and Building Code Services. These invoices are currently under review as LMDC awaits further supporting documentation associated with the invoices. LMDC plans to conclude on its feasibility evaluation in the upcoming quarter at which time the agreement may be extended.

Activity Description:

: As part of LMDC’s Community and Cultural Enhancement Program, LMDC funds will enable New York Public Radio (NYPR) to make improvements to The Jerome L. Greene Performance Space (“The Greene Space”), NYPR’s 5,300 square foot public performance and studio space in their Lower Manhattan headquarters at 160 Varick Street. Specifically, LMDC will support modifications and enhancements to the Control Room and the purchase of equipment related to Control Room enhancement. Beneficiaries of the Program will include the more than 20,000 people who come to The Greene Space facility each year to experience live broadcasts of signature WNYC shows, WQXR live concerts, and lectures, many of whom come to Lower Manhattan to visit The Greene Space. The Greene Space Programming also reaches hundreds of thousands of people via live broadcasts, audio and visual streaming and recorded programming. New York Public Radio is an independent non-profit organization comprised of 7 radio stations, including WNYC (93.9 FM, AM 820), WQXR (105.9 FM), and The Jerome L. Greene Performance Space. Their radio stations are the most listened-to public stations in the country, reaching 2 million listeners locally each week, and an additional national radio and digital audience of 8.5 million. The mission of NYPR is “to make the mind more curious, the heart more tolerant, and the spirit more joyful by producing programs that reflect the values, vitality, diversity, and aspirations of listeners wherever they may be.” The amount of this LMDC grant is \$200,000.

Activity Description:

: As part of LMDC’s Community and Cultural Enhancement Program, LMDC funds will enable the Lower Manhattan Cultural Council (LMCC) to implement a Marketing for the Arts program (“MFA”). The LMCC MFA is a marketing and communications training program, which will benefit seven specific, pre-selected lower Manhattan cultural institutions. Goals of the program include: increasing the capacity of the seven downtown cultural organizations to develop and implement strategic marketing and communications plans; to encourage and enable collaboration among the organizations to build community; and to engage in peer-to-peer learning opportunities as the basis for an ongoing network of mutual support. The six preselected and approved organizations which were all found to be in need of marketing and communication enrichment are: Chen Dance Center/H.T. Dance; CityLore on behalf of the CATCH consortium (Center for Art, Tradition, and Cultural Heritage); Clemente Soto Velez Center; HERE Arts Center; Museum of Chinese in the Americas; and Poets House. Specifically, LMDC will fund costs associated with LMCC staff, marketing and communication consultants, and guest speakers related to the design and implementation of the program. In addition, LMDC will provide the funds for LMCC to re-grant up to \$25,000 to each of the seven cultural institutions which have been selected to be a part of this program for the implementation of their marketing plan. Beneficiaries of the Program will be Lower Manhattan residents and workers who work on, visit, or attend exhibitions or events that the selected cultural institutions execute, as well as, artists and area businesses which will benefit from the expanded and enhanced activity in Lower Manhattan generated by these institutions through the successful implementation of their newly engineered marketing campaigns. The amount of this LMDC grant is up to \$500,000.

Activity Description:

PROJECT DESCRIPTION: On June 11, 2009, the LMDC Board authorized a reduction in the amount of the Subrecipient Agreement, which reduced the amount for the Fulton Corridor streetscape and streetwall improvement project in the Subrecipient Agreement from \$7,788,000 to \$7,102,050. The amendment to Partial Action Plan 12 reflecting that reduction is posted on the LMDC website. This program will enhance the pedestrian and vehicular movement in the portals leading to Fulton Street, including John Street from William Street to South Street to enhance the connection to Burling Slip. On January 26, 2012, the LMDC Board authorized a Partial Action Plan 12 and Subrecipient Agreement amendment to include an additional three blocks of Spruce Street between Park Row and Gold Street in the streetscape project. Partial Action Plan 12 was amended to include the additional blocks and posted on LMDC's website on March 12, 2012. The streetscape and streetwall improvements are part of the Fulton Corridor Revitalization Program. Potential improvements include new sidewalks and curbs, roadway resurfacing, street furniture, light poles, wayfinding signage, landscaping, seating, plantings and increased open space along Fulton Street between Gold and Pearl Streets.

PROPOSED BENEFICIARIES: The Fulton Corridor Revitalization Program will provide needed public investment in the Fulton Corridor, benefiting the growing residential population, businesses and retailers, and area office workers and visitors to the WTC Site and the South Street Seaport. The number of persons benefiting annually is based on a 2006 economic analysis report produced by The Louis Berger Group, which determined that there were approximately 49,111 residents who live within 0.5 miles of the project area and 52,141 workers who work within 0.25 miles of the project area.

SELECTION OF BENEFICIARIES: The Fulton Corridor is a major artery in Lower Manhattan, connecting the rebuilt World Trade Center site and Battery Park City to the Seaport and the soon to be developed East River Esplanade. The streetscape program will allow for steady improvement of streetscape to match the improved facades and open spaces.

Location Description:

The Program area for these improvements includes Nassau Street between Fulton Street and Maiden Lane, William Street between Maiden Lane and Beekman Street, Gold Street between Platt and Beekman Streets, Cliff Street between John and Fulton Streets, Pearl Street between Maiden Lane and Fulton Street, and Spruce Street between Park Row and Gold Street.

Activity Description:

LOWER MANHATTAN ECONOMIC DEVELOPMENT PROGRAM -- For Lower Manhattan to continue to recover from the attacks of September 11, new opportunities to increase economic activity must be developed. Creating new residential neighborhoods, attracting new commercial and retail tenants to Lower Manhattan, and spurring construction that will generate new jobs are important goals that are consistent with LMDC's Principles and Revised Preliminary Blueprint for the Future of Lower Manhattan. LMDC had allocated \$30 million for economic development initiatives in Lower Manhattan. Subsequent amendments reduced this amount to \$6,928,418. The New York City Economic Development Corporation (EDC) planned to use these funds to implement projects that (1) increase economic activity in Lower Manhattan by spurring and promoting additional commercial and residential development; (2) attracting or retaining businesses and residents to locate in Lower Manhattan; and/or (3) providing short-term and/or long-term jobs in Lower Manhattan. Prior to allocating funding to any project, EDC would engage public participation in the review of the project's ability to promote one or more of the above three goals and solicit and consider public input.

ECONOMIC DEVELOPMENT PROGRAM OBJECTIVES This program will spur activity that will help prevent blight that could result absent intervention to address the existing conditions resulting from the events of September 11. This program will also benefit low-and-moderate-income people.

BENEFICIARIES-- The economic development projects will benefit Lower Manhattan area residents, workers, businesses, and not-for-profit organizations, including low and moderate income persons and families. More specific beneficiaries will be identified as projects are selected.

SCHEDULE The economic development projects were expected to be identified by December 31, 2007 and to be completed by December 31, 2015. As noted below the activity completion date was extended to December 2017.

CURRENT PROJECTS UNDER THE PROGRAM -- The Small Firm Assistance Program is one of the projects funded under the Economic Development Program. The Small Firm Assistance Program provided grants to eligible small firms in Lower Manhattan adversely affected by street closures related to publicly-funded construction. The Program was amended to expand eligibility under the Program, increase the Programs funding and extend its expiration date through December 31, 2017.

FEDERAL AND OTHER RESOURCES-- LMDC proposes to allocate up to \$6,928,418 for a Lower Manhattan Economic Development Program.

TOTAL ESTIMATED COST--The total estimated cost for this activity as outlined in this Partial Action Plan is up to \$6,775,000.

Location Description:

PROJECT AREA— The project area for the economic development program is Lower Manhattan, on or south of Houston Street.

Activity Progress Narrative:

In the second quarter of 2017, LMDC staff continued extensive research and monitoring efforts to secure updated and reliable data on small businesses in Lower Manhattan experiencing disruption due to public construction.

During this time, LMDC staff obtained the status of all previous grant recipients and identified recent street closures due to public construction. These monitoring efforts will inform the next targeted phases of outreach planned for later in 2017.

To date, LMDC has received 442 applications for assistance and approved and paid 367, totaling \$5,100,559.28 in grant payments. LMDC has reimbursed NYC SBS for the amount of \$ 5,080,907.28.

Activity Description:

LOWER MANHATTAN TRANSPORTATION IMPROVEMENT PROGRAM-- Access to transportation has been identified as a competitive advantage for Lower Manhattan. Access to subways, the PATH station, ferries, bridges and tunnels make Lower Manhattan an attractive place to live and work. As Lower Manhattan continues to grow, ensuring sufficient transportation will be a key to its continue success. LMDC initially allocated up to \$31,000,000 then through amendments reduced the allocation to \$15,835,000 to address a range of transportation initiatives intended to benefit commuters, businesses, residents and pedestrians in Lower Manhattan. The City of New York and The National 9/11 Memorial Museum planned to use these funds to implement projects within Lower Manhattan that accomplished one or more of the following: improve mobility; improve connectivity between Lower Manhattan, the rest of New York City, and the surrounding region; promote the livability of Lower Manhattan and/or encourage business development; improve conditions for pedestrians and bicyclists; promote use of public transportation; provide access to the streets for those vehicles that need it; reduce congestion on the streets; support traffic management and emergency response; and ease the impact of construction on residents, businesses and tourists. Prior to allocating funding to any project, the National 9/11 Memorial Museum and the NYC Economic Development Corporation engaged public participation in the review of the project's ability to promote one or more of the above goals and solicit and consider public input. -PROGRAM OBJECTIVES This program will help prevent of blight that could result absent intervention to address the existing conditions resulting from the events of September 11th. -BENEFICIARIES-- The transportation improvement projects to be funded will benefit Lower Manhattan area residents, workers, businesses, and not-for-profit organizations, including low and moderate income persons and families. --ALLOCATIONS IN PARTIAL ACTION PLANS A total of \$31 million has been allocated in the Final Action Plan. The initial Final Action Plan allocated \$31,000,000 to Transportation Improvements. The Final Action Plan was amended in June 2012 to reduce the allocation for Transportation Improvements by \$14 Million to a total of \$17 Million. A February 2013 amendment further reduced the allocation to \$15,835,000. The February 2013 amendment also allowed the National September 11 Memorial & Museum at the World Trade Center Foundation, Inc. to allocate and implement Transportation Improvements.

Location Description:

The project area is Lower Manhattan, on or south of Houston Street.

Activity Progress Narrative:

The New York City Department of Transportation (NYCDOT) has continued to develop a network plan for wayfinding signage around the World Trade Center as part of Phase 3. NYCDOT Staff continued coordination with building owners, the MTA, New York City Parks Department, and the Downtown Alliance in order to finalize signage locations. Staff continued site plan production and submitted 17 wayfinding site plans to the contractor (Triumph Construction) for excavation. NYCDOT's goal is to complete 30 additional signs within the World Trade Center Site and PATH area. NYCDOT anticipates the signage installation to conclude by the end of next quarter.

New York City Economic Development Corporation (NYCEDC) has received over \$8 million in additional funding from the Federal Highway Administration (FHWA) for construction costs. FHWA Emergency Relief funds have been appropriated for Water Street to complement the LMDC funded public realm improvements and the FEMA funded Moore Street reconstruction. LMDC is in discussions with NYCEDC to amend the contract to extend the time of performance of the subrecipient agreement.

Activity Description:

PROJECT BACKGROUND: Lower Manhattan is now one of the fastest growing residential neighborhoods in New York City. As a result, the area has a pressing need for educational resources, including additional classroom space. **PROJECT DESCRIPTION:** LMDC proposes to allocate \$3,000,000 from the Final Action Plan for educational purposes in Lower Manhattan. Funds will be used to upgrade existing and/or create additional public school facilities in keeping with the DOE's Children First 2005-2009 Five Year Capital Plan. The objective of this activity is to benefit Lower Manhattan area residents through improved school facilities.

BENEFICIARIES: The thousands of families living in the immediate downtown area will benefit from improved educational facilities serving Lower Manhattan children. School improvements would serve the diverse Lower Manhattan community at-large, including low and moderate income persons.

SCHEDULE: New Lower Manhattan school facilities improvements are scheduled to be identified by December 31, 2009 and completed by December 31, 2011.

FEDERAL AND OTHER RESOURCES: The Department of Education will provide full project budgets once projects have been selected.

TOTAL ESTIMATED COST LMDC has allocated \$3,000,000 to the Department of Education to spend on projects to improve Lower Manhattan school facilities.

Location Description:

Lower Manhattan, south of Houston Street
