**Errata Sheet for East River Waterfront Esplanade and Piers  
Draft Environmental Impact Statement**

Following acceptance of the East River Waterfront Esplanade and Piers Draft Environmental Impact Statement (DEIS) by the Lower Manhattan Development Corporation Board on Thursday, October 12, 2006, substitute pages were inserted into the DEIS. Specifically, the Historic Resources chapter was revised to reflect the National Historic Landmark designation status of the Ambrose Lightship and Lettie G. Howard. This affected the following pages: 6-14, 6-19, and 6-20. These changes did not alter any of the findings in the DEIS.

Revised versions of the affected pages are attached to this sheet.
