Sound Enhancement Services for the Schimmel Theater

Scope of Work:

Recommend, specify, provide, deliver, install, and warrant a performance sound system including Scheduled Items (or recommended equivalents) for the Michael Schimmel Center for the Arts, a 743-seat proscenium theatre presenting primarily live theatre, musical theatre, dance, conferences, and digital RP film screenings. It is anticipated that additional sound packages may be required for pop music and festival-quality film screenings.

- Relocate console position to house right rear orchestra from house right rear balcony
- Consider additional sound reinforcement in the balcony and under-balcony areas

Bids should include all required cables, connectors, and software, as well as approximately 16 hours of staff training to be provided within 2 weeks of installation.
